

MARINE PHYSICAL LABORATORY SUMMER INTERNSHIP PROGRAM

The Marine Physical Laboratory (MPL) at world renowned Scripps Institution of Oceanography (SIO) is currently seeking applicants for our summer internship program.

The MPL Summer Internship Program is a paid, 8-week research program where interns complete research projects under the mentorship of SIO scientists and researchers. Interns also attend weekly seminars, participate in hands-on activities, and more!

RESEARCH TOPICS INCLUDE

Acoustics and Infrasound
Applied Ocean Sciences
Marine Mammal Biology
Ocean Instrumentation and Technology
Physical Oceanography
Population and Community Ecology
... and more!
